☐ Database Tools:	SQL Developer
☐ Code Repository:	Git
☐ Web Services	Restful Web services
☐ Domains	Admin, Finance
☐ Other Tools	Jira, GitHub, Pentaho

EMPLOYMENT SUMMARY

- COMPANY NAME: **futurism Technologies, Pune**
- DURATION: **Dec 2023 – Till Date**
- DESIGNATION: **Software Developer**

PROJECT SUMMARY

1.PROJECT NAME: Lending Platform

ROLE: Developer

ENVIRONMENT: Spring Boot, Hibernate, Postgres, Tomcat, Restful web services, Micro services.

DESCRIPTION

A lending platform is a digital platform that facilitates the borrowing and lending of money between individuals or entities. It acts as an intermediary, connecting borrowers in need of funds with lenders willing

to provide those funds. The platform streamlines the loan application, approval, and repayment processes, often using technology to assess creditworthiness, automate transactions, and enhance overall efficiency.

2.PROJECT NAME: DRS

ROLE: Developer

ENVIRONMENT: Spring Boot, Hibernate, Postgres, Tomcat, Restful web services, Micro services.

DESCRIPTION

DRS is a device rental software that specializes in providing the businesses involved in renting out various types of devices or equipment. This type of software is designed to streamline and automate the processes associated with managing device rentals, helping businesses efficiently handle inventory, reservations, customer interactions, and other aspects of their rental operations.

CONTRIBUTION:

- Sprint planning and estimation.
- Functional Testing of the application.
- Documenting the functionalities in the application.
- Client demo for the application.
- Ensuring accuracy and timeliness in delivery.
- Defect Fixation: Resolving the issues.
- Code Reviews and fixing Sonar violations.

3.PROJECT NAME: CRM

ROLE: Developer

ENVIRONMENT: Spring Boot, Hibernate, Postgres , Tomcat, Restful web services

DESCRIPTION:

A CRM system gives everyone from sales, customer service, business development, recruiting, marketing, or any other line of business a better way to manage the external interactions and relationships that drive success. CRM software lets you store customer and prospect contact information, identify sales opportunities, record service issues, and manage marketing campaigns, all in one central location and make information about every customer interaction available to anyone at your company who might need it.

ACADEMIC

- **B.Tech, Dr.Babasaheb Ambedkar Technological University**
- **HSC, Maharashtra State Board**
- **SSC, Maharashtra State Board**

PERSONAL PARTICULARS:

- **Languages Known:** English, Hindi, and Marathi

DECLARATION:

I hereby declare that the above stated information is true to the best of my knowledge.
